# Double Square Adapter

## Description

Double Square adapters are typically used for the reduction of the internal square or double square of pneumatic actuators or electric actuators.

Install square adapters over the square stem on ball valves, butterfly valves or other type valves to increase the size. Insert into the output drive of air or electric actuators to reduce the output size.

## Standard Specifications

- Standards: Adapters conform to ISO 5211 for square drives in actuators and on valves.
- Material: Iron
